

Successful combination of compact design and power

Where price matches value – the CM 15 from Putzmeister

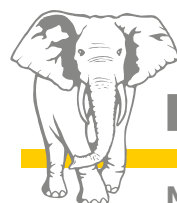

- For ready-mix dry mortars (lime-cement or cement mortar, filler or skim coat, reinforcement or bonding mortar, finish and decoration plaster)
- Grain size up to 4 mm
- Rubber mixing hose for easy cleaning of the entire mixing zone
- Detachable 230-volt drive
- Low weight
- Hopper can be lowered and is easy to dismantle for convenient handling and uncomplicated transportation

The continuous mixer from Putzmeister with 230-volt connection

CM 15 continuous mixer – full power at 230 V!

The compact CM 15 continuous mixer from Putzmeister incorporates efficient mixing technology for almost any construction site – both indoors and outdoors. It reliably and homogeneously mixes ready-mix dry mortar such as lime-cement or cement mortar, filler or skim coat, reinforcement or bonding mortar, finish and decoration plaster with a grain size up to 4 mm. The mixer is extremely user-friendly due to its low weight and easy to dismantle, while the hopper can be lowered. Not only do you benefit from convenient handling, the mixer can also be transported in almost any passenger vehicle. After finishing work, you can clean the CM 15 in just a few minutes using the rubber mixing hose. Your expert Putzmeister dealer would be glad to provide you with further details.

Simple is better – the CM 15 continuous mixer from Putzmeister

The CM 15 continuous mixer is not only extremely reliable, but also easy to operate and very versatile. Equipped with our powerful and robust electric motor, it is a permanent feature on both indoor and outdoor construction sites. And not without good reason because even the standard version of the CM 15 has a practical, detachable 230-volt drive. It effortlessly mixes cement and reinforcement mortar as well as coloured and base plaster with a maximum grain size of 4 mm.

CM 15 continuous mixer – standard equipment

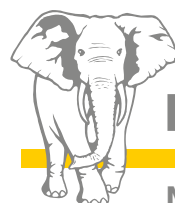

- Drive motor
- Water connection
- Mixer shaft and conveyor screw
- Rubber mixing hose with water connection and bearing unit
- Hopper that can be lowered
- 230-volt connection
