# Performance Refined. Evolution Defined.

SUMITOMO

#### Engine and Hydraulics 04-07

- New Generation Engine System "SPACE 5+"
- New Hydraulic System "SIH:S+"
- ·SUMITOMO Fuel Efficiency Technology
- · Drastically Increased Productivity

#### Durability and Maintenance 08-09

- ·High Rigidity Attachments
- ·EMS
- ·Ground Level Maintenance

#### Safety and Operator Comfort 10-13

- ·Stylish and Spacious Cabin
- ·High-Definition Full Colour LCD Monitor
- FVM® (Field View Monitor) (option)

#### Specifications 14-19

#### **ENGINEERED IN JAPAN**

The world knows that Japanese designed and engineered products represent the highest quality, especially for Industrial Products. The hydraulic excavator is no exception when a totally integrated concept is required in design work involving key components, manufacturing engineering, and product quality assurance in the factory.

SUMITOMO hydraulic excavators are designed and manufactured today to meet the global demands of our many customers with the concept of Performance, Reliability, and Fuel Efficiency foremost in our minds. This proven Japanese technology and quality gives SUMITOMO excavator customers total peace of mind and provide a complete solution for the demands of the construction industry.

#### New Generation Engine System "SPACE 5+"

The new engine system optimises fuel efficiency and environmental performance via the advanced common rail fuel injection system, cooled EGR system, and turbocharger.

At the same time, excellent response times are achieved.

### **Engine and Hydraulics**

SH145XU-6 has achieved a 7% fuel saving

in comparison with our DASH 3B series, by fusing the new generation engine system "SPACE 5+" and the new hydraulic system "SIH:S+", further refining fuel efficiency. At the same time the newly developed ISUZU engine, contributes greatly to the environment.

#### Mode Selection by Throttle SUMITOMO UNIQUE DESIGN

There are three new working modes available: SP (Super Power) for heavy duty applications, H (Heavy) for normal working conditions, and A (Auto) for a wide range of operations.

#### **Further Improvements to Fuel Consumption**

Optimal control for economic operation has reduced fuel consumption by 7% in H mode.

\*Fuel consumption may vary from time to time depending on site and working conditions,

#### **ECO Gauge to Display Energy Efficiency** Operation

An ECO Gauge and fuel consumption indicator are included within the monitor to make energy efficiency recognisable in an instant.

#### **SUMITOMO Technology for Fuel Efficiency**

 SSC (Spool Stroke Control) SUMITOMO UNIQUE DESIGN Reduces engine load upon heavy duty operation.

●PTR (Pump Transition Reduction) SUMITOMO UNIQUE DESIGN

Decreases engine load when the pump flow requirement is reduced upon abrupt pump load.

BES (Boom-down Energy Save) SUMITOMO UNIQUE DESIGN

Lowers engine speed upon boom-down and swing operation which does not require large oil flow.

● AES (Auto Energy Save) SUMITOMO UNIQUE DESIGN

Lowers engine speed accordingly when low engine load is sensed.

#### Idle Shut Down & Auto Idle

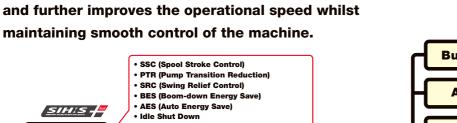

Upon activation, idle shut down automatically shuts the engine down when the machine is not in operation for set amount of time. Auto Idle is also available, which makes the engine begin idling approximately five seconds after the operation levers are in neutral

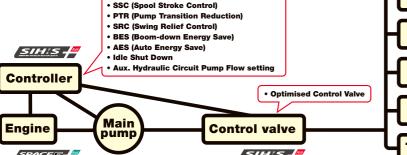

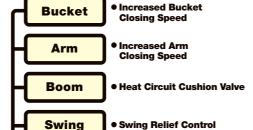

## **Engine and Hydraulics**

SUMITOMO's original Spool Stroke Control (SSC) technology perfectly matches the engine and hydraulic power, and further improves the operational speed whilst

Travelling Slope Travel Assist Control

Mobility With Small Swing Radius and Offset range Offset Boom Suit to a Diverse Range of Jobs 1150 mm : 1180 mm Offset boom ideal for digging in tight areas A round cab design imises the front and ear distance from the cab to ensure its agile nobility is even safer 2490 mm **245** mm **245** mm Distance from rear end

#### Work Efficiency Drastically Increased SUMITOMO UNIQUE DESIGN

Spool Stroke Control (SSC) variably controls spool port flow rate, depending on the condition of operation. Improved power, speed, and smoother controls mean that work efficiency is dramatically increased.

#### **Shorter Cycle Time and Operability**

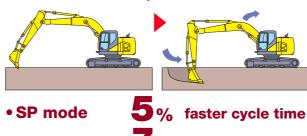

A speed increase of 5% for cycle time (SP mode) has been achieved, compared with the SH135X-3B (N mode). Control also focuses on operability when delicate operations are required, ensuring both productivity and operability.

#### **Horsepower Control and Increased Automatic Digging Power**

The volume of the main pump has been increased by 10% for faster work speed and more flexibility with complex operations. Pump horsepower increases during heavy-duty digging, delivering sufficient power for stress-free operations.

#### Speed and Power, Dramatically **Increases Productivity**

A mode

(as compared with SH135XU-3B. SP mode has been compared with N mode, and A mode with E mode) \*Based on SUMITOMO's testing condition and results.

faster cycle time

#### **Remarkable Combined Operation**

Prevents rapid deceleration upon combined operation such as attachment operation when travelling, ensuring stable performance.

#### **Auxiliary Hydraulic Circuit**

Selection of auxiliary circuit has been made easier. Correct pump flow (one pump or two pump) will automatically be activated upon operator's selection of the circuit.

#### **Operating Condition Easily Viewable** on Display

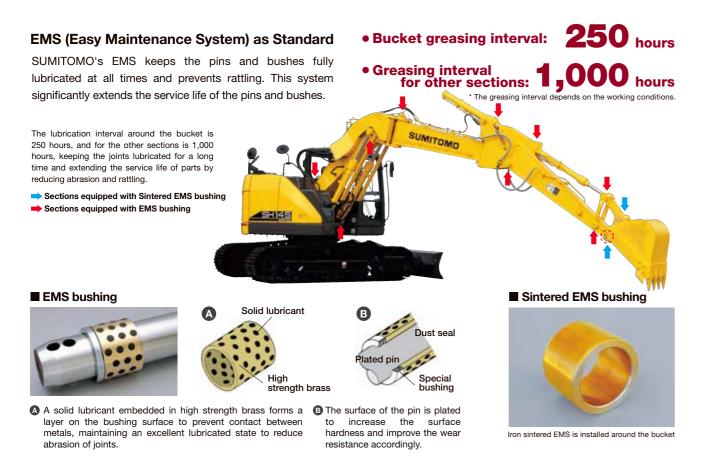

Various control such as working modes and auxiliary hydraulic setting can be easily selected by the universally designed switch panel, and the selected mode can be easily viewed on the 7' wide monitor.

### **Durability and Maintenance**

Serviceability and durability are also important points of machine performance. Ground level access to the engine area makes daily maintenance extremely straightforward.

Reliability has been further enhanced by increasing cooling capability and durability.

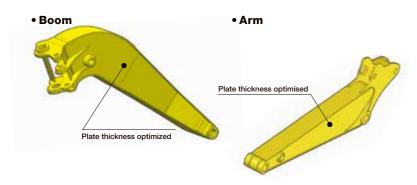

Precautionary use of EMS

- ① Grease is enclosed, however greasing is necessary every 1000 hours or six months depending on the level of dusting conditions.
- ② Greasing is also necessary after any components have been submerged underwater for prolonged periods.
- ③ Greasing is also recommended after use with hydraulic breakers, crushers or other high impact attachments such as Rock Saws etc.
- Bucket pins should be cleaned thoroughly when removing or attaching new buckets.

#### **High Rigidity Attachments**

The structure of the boom and arm has been further improved, ensuring strength and durability. In addition, reliability has been increased on the boom base and arm base.

#### Inner Hydraulic Hose

The hydraulic hose is installed inside the off-set rod, protecting from potential damage caused by direct external contact.

#### **Ground Level Access to Engine Area Improves Preventative Maintenance**

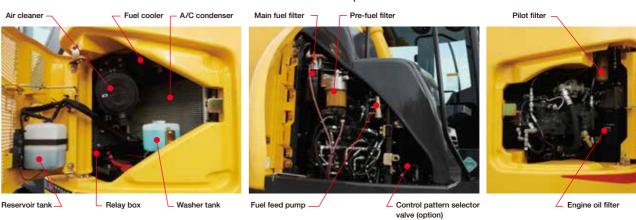

Parts cleaning and maintenance are possible from the ground without climbing onto the upper structure of the excavator body.

#### Increased Cooling Capability

With the larger radiator and oil cooler, cooling capacity is increased, thus improving reliability. In addition, cleaning of the dust-proof net is simplified.

#### • Easy Filter Replacement

A fuel prefilter and clogging sensor to the main fuel filter are provided as standard equipment to reduce trouble due to fuel clogging. In addition, the fuel and oil filters are installed at ground-accessible location to facilitate replacement.

#### **High-Performance Return Filter**

The hydraulic oil change interval is 5,000 hours, and the return filter change interval is 2,000 hours. One high performance return filter keeps the same level of filtering as a nephron.

• Hydraulic oil change: **5,000** hours

• Life of filter:

**2,000** hours

\* The oil and filter change interval varies depending on the working condition

#### Cab Floor Mat SUMITOMO

The washable floor mat has been redesigned for ease of removing and cleaning.

#### Easy Access to A/C Filter

The air intake filter is located in a lockable compartment to make it easier to replace, and access to the inside cab filter has been simplified.

#### **Fuse Box Location**

The fuse box has been located in a separate compartment behind the seat, allowing easier access.

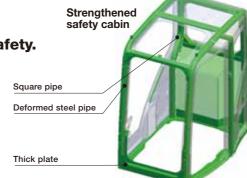

## **Safety and Operator Comfort**

Planning for safety in the event of a roll accident, a new strengthened safety cabin has been provided. The reinforced cabin greatly increases the operator's safety.

#### **Newly Designed Strengthened Safety Cabin**

The optimised design and strengthened parts increase the overall cabin strength. Even if the shovel were to tip over, the safety of the operator is ensured by keeping cabin deformation to a minimum.

#### **Wide View Increases Safety of Work**

In addition to the wide front view, the upper view has been widened to enhance work safety.

#### **Rearview Camera (option)**

With the rearview camera, the operator can view the image on the large LCD monitor. A side camera is available as an option and up to two different images can be displayed on the monitor.

#### Safe and Easy Entry into and Exit from the Cab

A large handrail for easy opening/closing of the door and increased floor space permit the operator to get in and out of the cab easily.

#### **Easy Access to the Upper Structure**

#### **Rearview Mirror**

The rearview mirrors reduce blind spots during operation. ISO compliant mirrors also available as option.

#### **Safety Equipment**

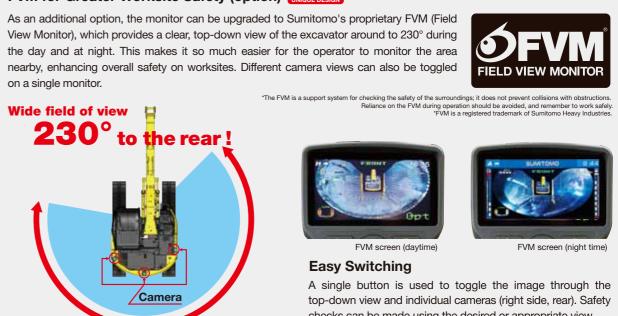

#### FVM for Greater Worksite Safety (option) SUMITOMO UNIQUE DESIGN

checks can be made using the desired or appropriate view.

## Safety and **Operator Comfort**

The spacious cab on fluid mounts and reclining suspension seat help reduce operator fatigue and provide a relaxed environment.

# Comfort Cabin to seat: +45 mm Foot space: +35 mm (as compared with SH135XU-3B)

#### Large High-Definition LCD Monitor

A new large high-definition full-colour LCD monitor has been introduced with better visibility and a switch panel which is easy to operate. Added functionality such as ECO gauge showing parameter of energy saving, display of operation status and warning messages, provides accurate information which improves work efficiency and safety.

#### Indicators

- 1 Working modes 2 Travel speed
- 3 Work lights
- 4 Engine idle modes 5 Anti-theft
- 6 Attachment selection 7 Digital clock
- 8 ECO gauge

#### **Switch Panel**

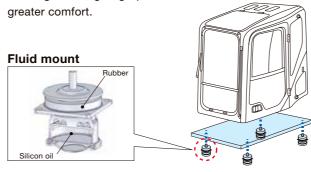

- A Travel speed button
- O Computer menu Camera on/off

- 9 Fuel level gauge
- 10 Engine coolant temperature
- Fuel consumption indicator 12 Hydraulic oil temperature
- 13 Power boost 14 Radio mute
- 15 Hour meter

- B Fuel consumption button O Aux. hydraulics settings
- F Hour meter / Camera toggle button
- Window washer control Engine idle mode button
- Worklights on/off
- Window wiper control

#### **Super Comfortable Cab Mounts and Pressurised Cab**

Fluid mounts that support the cab absorb shocks and vibrations effectively, improving ride comfort. The cab also features a pressurised design to prevent dust from entering inside, giving operators

#### **Ample Legroom and Comfortable Seats**

Legroom around the cab has been increased for comfortable operations. The operator seat features a head rest and arm rests, and comes with a wide range of seat adjustment functions with a comfortable suspension system.

#### **Automatic Air Conditioner**

An automatic air conditioner is included to keep the cab interior at the ideal temperature. The sealed, pressurised cab helps to increase air conditioner efficiency.

#### Radio and Speaker with USB Port and MP3 Jack

In addition to the AM/FM radio and dual speaker system with improved sound quality, auxiliary audio port is provided standard for devices such as MP3 players.

#### **Roof Window for Greater Freedom**

A new pop-up roof window (made of polycarbonate) with sun shade has been installed for greater comfort.

#### **Under-cab Storage Space**

Storage space has been included under the cab for various tools.

#### **Comfortable Equipment**

Magazine rack

# Specifications

#### SH145XU-6 Technical Data

Electronic-controlled engine of SPACE 5+ and SIH:S+ with New Hydraulic System Includes: three working modes (SP, H and A), one-touch/automatic idling system.

#### Engine

Liigiile				
SH145XU-6				
Model	ISUZU GJ-4JJ1X			
Туре	Water-cooled, 4-cycle diesel, 4-cylinder in line, high pressure common rail system (electric control), turbocharger with air-cooled intercooler.			
Rated output	70.9 kW (96.4 PS) at 2,000 min <sup>-1</sup> (rpm)			
Maximum torque	340 N-m at 1,600 min-1(rpm)			
Piston displacement	2.999 ltr			
Bore and stroke	95.4 mm x 104.9 mm			
Starting system	24 V electric motor starting			
Alternator	24 V, 50 A			
Fuel tank	200 ltr			
Air filter	Double element			

#### Hydraulic pumps

Two variable displacement axial piston pumps provide power for boom/arm/bucket, swing, and travel. One gear pump for pilot controls.

	SH145XU-6
Maximum oil flow	2 x 129 ltr/min
Pilot pump max. oil flow	20 ltr/min

#### Hydraulic motors

For travel: Two variable displacement axial piston motors. For swing: One fixed displacement axial piston motor.

#### Working circuit pressure

Boom/arm/bucket ···· 34.3 MPa (350 kgf/cm²) Offset ----- 21.6/27.5 MPa (220/280 kgf/cm²) Swing circuit .......... 28.0 MPa (286 kgf/cm²) Travel circuit ............ 34.3 MPa (350 kgf/cm²)

Control valve
With boom/arm holding valve

One 4-spool valve for right track travel, bucket, boom and arm acceleration One 5-spool valve for left track travel, auxiliary, swing, boom acceleration and arm One 2-spool valve for blade arm offset.

#### Oil filteration

Return filter ····· 6 microns
Pilot filter · · · · · 8 microns
Suction filter 105 microns

#### Hydraulic cylinders

,			
Q'ty	Bore x Rod Diameter x Stroke		
2	105 mm x 75 mm x 1,120 mm		
1	105 mm x 75 mm x 1,093 mm		
1	120 mm x 65 mm x 363 mm		
1	95 mm x 65 mm x 881 mm		
2	115 mm x 70 mm x 250 mm		
	2 1 1 1		

Double-acting, bolt-up type cylinder tube-end; hardened steel bushings installed in cylinder tube and rods ends.

#### Cab & controls

The cabin is mounted on four fluid mountings. Features include safety glass front, rear and side windows, adjustable upholstered suspension seat with headrest and armrest, cigarette lighter, pop-up skylight window, and intermittent wiper with washer.

The front window slides upward for storage and the lower front window is removable. Built-in type full-colour monitor display. Membrane switch on monitor display.

#### Swing

Planetary reduction is powered by an axial piston motor. The internal ring gear with has a grease cavity for pinion. The swing bearing is a single-row shear type ball bearing. Dual stage relief valves are used for smooth swing deceleration and stops. A mechanical disc swing brake is included.

SH145XU-6			
0~11.2 min <sup>-1</sup> (rpm)			
1,490 mm			
37.0 kN·m (3,773 kgf·m)			

#### Undercarriage

An X-style carbody is integrally welded for strength and durability. The grease cylinder track adjusters have shock absorbing springs. The undercarriage has lubricated rollers and idlers.

#### Type of shoe: sealed link shoe

#### Upper rollers -

Heat treated, mounted on steel bushings

with leaded tin bronze casting, sealed for lifetime lubrication.

Heat treated, mounted on steel bushings with leaded tin bronze casting, sealed for lifetime lubrication.

#### Track adjustment -

Idler axles adjusted with grease cylinder integral with each side frame; adjustment yoke mechanism fitted with heavy duty recoil spring.

#### Number of rollers and shoes on each side

SH145XU-6			
Upper rollers	1		
Lower rollers	7		
Track shoes	43		

#### Travel system

Two-speed independent hydrostatic system with compact axial motors for increased performance. Hydraulic motor powered output shaft coupled to a planetary reduction unit and track sprocket. All hydraulic components mounted within the width of side frame.

Travel speed can be selected by the switch panel on the monitor display. Hydraulically released disc parking brake is built into each motor.

SH145XU-6				
Travel speed	High	5.6 km/h		
	Low	3.4 km/h		
Drawbar pull		116 kN (11,829 kgf)		

#### Lubricant & coolant capacity

SH145XU-6				
Hydraulic system	158 ltr			
Hydraulic oil tank	75 ltr			
Fuel tank	200 ltr			
Cooling system	15.3 ltr			
Final drive case (per side)	2.1 ltr			
Swing drive case	1.8 ltr			
Engine crank case	17.0 ltr			

#### Auxiliary hydraulic system

SH145XU-6		
Auxiliary piping type (option)	For Breaker	
Arm type	HD	
Bucket linkage type	HD	
Auxiliary hydraulic pump flow	129 ltr/min	

#### **Bucket**

Dr	inciple Specifications	SH145XU-6
	incipie opecinications	STD Specifications
	Std. operating weight	15,300 kg
	Boom length	4.50 m
Base	Arm length	2.11 m
Ba	Bucket capacity (ISO heaped)	0.45 M3
	Shoe width	500 mm
	Counterweight	3,500 kg
e	Make & model	ISUZU GJ-4JJ1X
Engine	Rated output	70.9 kW/2,000 min <sup>-1</sup>
ш	Piston displacement	2.999 ltr
E	Main pump	2 variable displacement axial piston pumps with regulating system
yste	Max oil flow	2 × 129 ltr/min
Hydraulic System	Max pressure	34.3 MPa
ä	Travel motor	Variable displacement axial piston motor
/dr	Parking brake type	Mechanical disc brake
f	Swing motor	Fixed displacement axial piston motor
	Travel speed	5.6/3.4 km/h
	Drawbar pull	116 kN
Ge	Gradeability	70% <35°>
Performance	Ground pressure	50 kPa
orm	Max swing speed	11.2 min <sup>-1</sup>
erfe	Swing torque	37.0 kN·m (3,773 kgf·m)
<u>а</u>	Bucket digging force (ISO 6015)	89.3 kN
	Arm digging force (ISO 6015)	59.5 kN
Others	Fuel tank	200 ltr
ŧ	Hydraulic oil tank	75 ltr

#### Standard Equipment

#### [Hydraulic system]

- •SIH:S+ hydraulic system
- •Operation mode (SP, H and A mode)
- Arm/boom/bucket reactivation circuit
- •Automatic swing parking system
- •High-performance return filter

#### [Cab/interior equipment]

- •Top guard OPG level1 (in cab structure)
- •4-point fluid mounts
- •Built-in type full-colour monitor display
- •Open air introducing pressurised full-automatic air conditioner
- Defroster
- •KAB seat
- •Seat suspension
- •Armrest & headrest
- •Windscreen wiper
- (with intermittent operation function)
- Cup holder
- •AM/FM radio (with muting function and AUX port & USB port)
- •Radio mute/Windscreen wiper
- Clock
- Magazine rack
- Accessory case
- Floor mat
- •Ashtray & cigarette lighter
- •Cab light (Auto-OFF function)
- Coat hook

■ Cab-top lights

- [Safety equipment] •Rearview mirror (left/right)
- •Emergency escape tool
- Retracting seat belt
- •Gate lock lever
- •Travel alarm (with on and off switch)
- •Anti-theft alarm system
- •Engine room firewall
- •Fan guard
- •Engine emergency stop switch
- •Engine neutral start

#### [Others]

- Auto/one-touch idling
- •Auto idle shutdown system
- •EMS
- •Long-life hydraulic oil
- •Two lights (main unit and left of boom)
- •Fuel filter (with water separator)
- •Fuel prefilter (with water separator)
- •Double-element air cleaner
- •Grease-enclosed track link
- Tool box
- •A set of tools

#### Accessories (option)

■ Rain deflector

- Refuel pump
- Hose burst check valve (HBCV) for boom/arm cylinders
- Side camera
- Rearview camera
- ■ISO compliant guardrail
- ■ISO compliant mirror
- ■ROPS Cabin

#### **Working Range**

0 0							
SH145X	(U-6						
Arm length	2.11 m (STD)	2.41 m (LONG)					
Boom length	4.50 m						
A Max digging radius	7,590 mm	7,840 mm					
B Max digging depth	4,910 mm	5,210 mm					
C Max digging height	8,630 mm	8,810 mm					
D Max dumping height	6,250 mm	6,430 mm					
E Max vertical wall cut depth	4,590 mm	4,900 mm					
F Min front swing radius	1,430 mm	1,590 mm					
G Tail swing radius	1,49	0 mm
